

BUS PLUG-IN

Background

The Division recognizes that appropriate overnight storage arrangements provided by the driver are necessary for reliable operation during the cold weather portion of the school year.

Procedures

1. Bus drivers who use their own electricity for the block heaters on school buses are permitted to bill the Division for this service at a rate established in Administrative Procedure 513 Appendix – Expense Reimbursement which is currently in force, for all or any of the months of November to March inclusive. Bus drivers will be reimbursed monthly at the established rate.

- 1.1 A monthly expense reimbursement covering instructional days in which electricity was provided is to be submitted electronically at the end of each month November through March. Additional plug-in expenses may be approved at the discretion of the Transportation Services Manager or designate.
